OF THE

PAPER MONEY

ISSUED BY THE

Continental Congress of the United States

AND THE

SEVERAL COLONIES.

PHILADELPHIA:

PREFACE.

MANY collectors of the paper money issued by the American Colonies and the Continental Congress, have felt the need of a work that would assist them in forming their collections, by giving them some knowledge of the actual existence of the different notes. The works that have previously been issued on this subject have given the date and denomination of the different notes known to have been issued, but have furnished no information as to what notes were really attainable.

The author of this work has carefully examined all collections that were available, and while of course there may be errors of omission, he still trusts that his efforts will supply, partially, a need that has long been felt, and hopes that it will be of considerable assistance to those forming collections; and, if he meets with sufficient encouragement in this new field, will issue at a later date a work upon a larger and more detailed scale, with more plates of the rare and valuable, or interesting notes.*

* All notes mentioned in this work are known to be in collections, and no matter how rare, there is a chance, however slight, at some time to obtain them.

34005

The author takes this opportunity of thanking those who have assisted him in the compilement of this work, which has rendered his task an easier one than it would otherwise have been; particularly is this the case in the assistance kindly furnished by Mr. John C. Browne, of this city.

The illustrations in this volume are reproduced from the original notes by the photozincographic process, by Mr. F. A. Wenderoth, of Philadelphia.
